

# Screencast Planning Worksheet

---

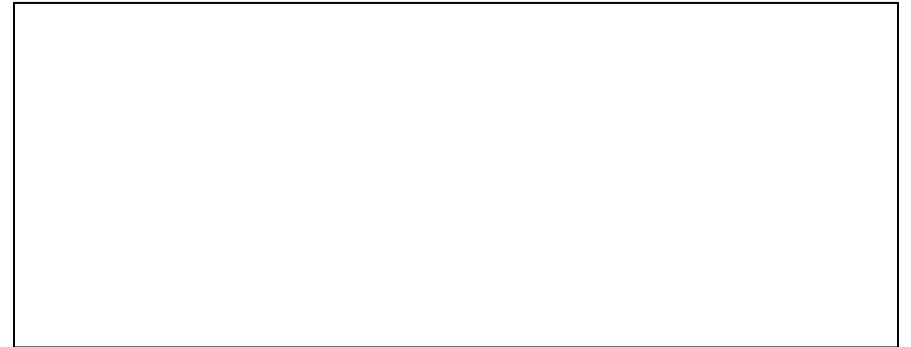

## Analyze Learners

- Who are the learners for this screencast?
- What do they already know?
- What do they need to know and why do they need to know it?

## Define Learning Objectives

- What should learners be able to do at the end of this screencast?
- Be specific! Bad = know how to find an article Good = use truncation in Scholars Portal searches

## Plan & Outline Content

- What content will help learners?
- How should the content be organized?
- How should the content be presented visually?

# Screencast Content Outline
